EXPERIENCE

Software Development Engineer - I

Dec 2023 – Present

Reliance JIO Platforms Limited

Mumbai, India

- Enhanced a large-scale reporting system processing **2 billion+ daily records**, improving data throughput by **40%** and streamlining analytical workflows.
- Engineered internal monitoring UIs using **ReactJS** for Generic REST APIs, enabling dynamic consumer control and reducing mean time to recovery (MTTR) by **35%**.
- Implemented real-time data synchronization between **Elasticsearch** and **Redis**, enhancing system reliability and reducing processing latency by **30%**, with real-time alerting integrated via **Prometheus** and **Grafana**.
- Integrated RESTful APIs using **Node.js** and **ExpressJS** to support monitoring dashboards and internal automation tools, improving data flow reliability and system maintainability.
- Improved Redis connection management by identifying and removing redundant client sessions, increasing connection efficiency by approximately **78%** and strengthening system stability.
- Contributed to the migration of two production sites (8–10 VMs each, 10 instances per VM handling SMS traffic) from **Azure Cloud** to **Jio Business Cloud**, increasing scalability, security, and operational reliability.

DevOps Intern

May 2022 – Jul 2022

Celebal Technologies

Jaipur, India

- Automated deployment pipelines for static websites on **Azure** using **CI/CD** and **Docker**, reducing manual work by **70%**.
- Gained hands-on experience with **Microsoft Azure**, **Agile workflows**, and containerized application delivery.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C++, Python

Frameworks & Libraries: ReactJS, NodeJS, ExpressJS, AngularJS, ViteJS

Databases: MySQL, MongoDB, Redis, Apache Druid, CouchDB

Tools & Technologies: Git, Docker, Kafka, Postman, Azure, Grafana, Linux, Wireshark, VS Code

Core Concepts: REST APIs, Microservices, Distributed Systems, Scalability

Certifications: Microsoft AI Fundamentals, Cisco Networking Academy Introduction to IOT

PROJECTS

DeFi Application | *Blockchain, Smart Contracts, ReactJS, Web3*

- Created a decentralized finance app enabling **Ethereum and Testnet transfers globally**, increasing blockchain accessibility for **200+ users**.

NFT Marketplace UI | *React Native, Expo CLI*

- Designed a mobile-first NFT marketplace with real-time metadata rendering, improving user engagement and asset visibility by **40%**.

Conference Meeting App | *Agora, ReactJS, WebRTC*

- Devised a full-stack video conferencing platform featuring real-time polls, granular access control, and WebRTC support for **100+ users**.

EDUCATION

Rajasthan Technical University

Jaipur, India

Bachelor of Technology in Computer Science and Engineering

Aug 2019 – Jul 2023

ACHIEVEMENTS

Smart India Hackathon 2022 – Finalist: Developed an offline DBT portal for delivering remote scholarship benefits, organized by Govt. of India.

Best Final Year Project: Built a decentralized finance solution enabling global Ethereum and Testnet transfers using Web3 technologies.
